

UCP Annual Report

2004-2005

UCP

We acknowledge and thank all individuals, corporations, foundations, vendors and other friends of United Cerebral Palsy (UCP) Association of Greater Chicago who made a contribution in fiscal year 2005. Your gifts help us continue to fulfill our mission to “advance the independence of people with disabilities, enrich their lives, provide support to their families and advocate for their inclusion in every facet of community life.”

We appreciate your generous contributions and ask that you continue to remember UCP when making philanthropic decisions.

Dear Friends,

During the past year United Cerebral Palsy Association of Greater Chicago has celebrated the success of new initiatives and existing programs linked by a common goal – helping people with disabilities experience life without limits.

Through the power of partnerships, we have achieved results that might have seemed beyond reach just a short time ago:

- Each year, Early Intervention (EI) trains more than 8,000 EI providers while responding to more than 1 million Web site requests
- UCP educates annually nearly 3,000 professionals in the use of assistive technology
- More than 30,000 computers have been donated to children with disabilities through the Assistive Technology Exchange Network (ATEN)
- Through the Infinitec coalitions, close to 1 million Illinois students access a loan library of assistive technology equipment valued at \$2.5 million

And we see an even brighter future ahead. Building on this year’s great success, we are moving forward with new plans under the banner of Infinitec – infinite potential through technology – combining assistive technology, support and education. In the next year, we will expand Infinitec Assistive Technology Coalitions from 400 Illinois school districts into a national model. The program’s first out-of-state venture, in Kansas, was launched in September.

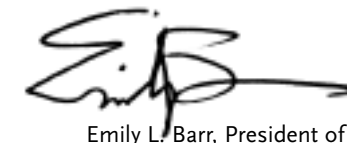

Additionally, we will roll out the next phase of the Ramp Up Foundation, which constructs and installs ramps for children and adults who would otherwise be confined to their homes. Over the next year, we will extend Ramp Up into a complete home-modification program. By enlarging doorways and installing accessible kitchens and bathrooms, stair riders and home elevators, we will transform entire homes to meet the special needs of people with disabilities.

UCP’s recent success and projected growth have come despite funding cutbacks and increased competition for dollars affecting nonprofit organizations nationwide. We have met our goals and set new ones by leveraging our resources and capitalizing on our strengths. In the last fiscal year an astonishing \$0.88 of every dollar generated went directly to programs. Our stewardship is helping ensure our programs and services are not reserved for the few but are accessible to every person with a disability.

To carry forward that vision, we once again turn to the power of partnership and the strength of sharing. Your generosity enables us to continue to provide a safety net for people with disabilities. On behalf of the entire UCP family and those touched by our services, thank you for your commitment to helping us turn life’s possibilities into reality for people with disabilities.
