REPRODUCED

District 30's Environmental Awareness Committee is sponsoring the third annual Equipment Recycling Drive from 9 a.m. to noon April 28, at Maple School, 2370 Shermer Road, Northbrook. Last year over 12 tons of computer electronics was collected at the school. This effort is being coordinated in conjunction with The Assistive Technology Exchange Network, an Infinitec program of United Cerebral Palsy of Greater Chicago.

The committee is currently looking for used computer electronics ranging from computers, monitors, printers, cell phones, fax machines, keyboards, mice, software, to a variety of printer/power cords and other assorted computer-related technology.

The network reuses and recycles the electronic equipment. It is refurbished and ultimately distributed to children with disabilities around the state of Illinois. For more information, contact the Maple School office at (847) 400-8900.
