# Looking for a way to get rid of your old computer?

BY CHAD BROOKS

*Daily Herald Staff Writer*

Just because that old computer — you know, the one collecting dust in a closet somewhere — seems outdated, doesn't necessarily mean it's worthless.

Students at the John G. Conyers Learning Academy in Rolling Meadows are hosting their third annual computer recycling event on Saturday.

All of the computer equipment and electronics collected will be donated to the Assistive

Technology Exchange Network, or ATEN, of United Cerebral Palsy of Greater Chicago.

ATEN refurbishes unneeded computers and provides the updated equipment free to Illinois students with disabilities.

Items sought this year include computer electronics, Pentium II or higher or Apple G3 or better, printers, monitors, modems, drives, peripherals, software (originals only), keyboards, mice, cables, fax machines and cell phones.

This year ATEN is also collecting durable medical equipment.

Items needed include canes, crutches, walkers, wheelchairs, standers and therapeutic equipment.

The event will run from 9 a.m.

to noon at the John G. Conyers Learning Academy, 2800 W. Central Ave. in Rolling Meadows. For more information, call (847) 963-3450.
