

UCP and Thrivent Partnership

UCP and Thrivent have launched a partnership to provide home modifications to people with disabilities. UCP provides the technical expertise and Thrivent – a nonprofit organization for Lutherans – provides volunteers and materials. The first joint event was May 17, 2008, at the home of Teresa Styles who has muscular sclerosis. UCP's Ramp Up program had recently installed a ramp, stair ride and accessible bathroom. The Thrivent volunteers replaced doors and trim, painted, planted flowers and made other minor repairs.
